TUESDAY, MARCH 6

The German Emperor is confined  
to his room with a severe chill, but  
the report adds that his condition  
does not cause anxiety.

The Lewisburg Leader says eggs  
are selling for 25 cents a dozen, and  
butter at 30 cents a pound, while  
spring chickens are 14 cents. Lewis-  
burg is evidently making a bid for  
wholesale immigration.

Mexico's "lost provinces" of nearly  
1,000,000 square miles amount to  
more than the Mexico to-day. They  
comprise eight or ten populous states,  
but the three border states alone can  
"recover" Mexico if Uncle Sam says  
the word.

Viscount Motono, Japan's foreign  
minister, says he considers Zimmer-  
man's idea ridiculous, it being based  
on the outrageous presumption that  
Japan would abandon her allies. If  
Mexico received the proposal, Vis-  
count Motono added, that country  
showed intelligence in not consid-  
ering it to Japan.

One of our exchanges with more  
wisdom than the rest of us gives this  
advice:

"In the way of economy we would  
advise that in buying seed Irish po-  
tatoes, only the peeling containing eyes  
be planted and the potato eaten.  
Make the peeling thick so as to not  
injure the eyes, and you will thereby  
make the seed potato do double duty."

Carranza and his German minister  
Zubaran both refuse to talk about the  
Zimmerman note; the German minis-  
ter to Mexico, von Eckhardt, after a  
weak denial refused to make any fur-  
ther statement, and the Japanese offi-  
cials state with emphasis that the  
proposition never got to them, which  
is probably true. The negotiations  
apparently never got beyond a Ger-  
man connivance with Carranza, whose  
enmity for the United States caused  
him to repudiate an agreement made  
by his own commissioners.

In this glorious climate of Southern  
Kentucky, when we have had no  
snow for a month it is interesting to  
read this tale of woe in the Louisville  
Times of March 2: "Slightly more  
than two inches of new snow was  
added during the forenoon to-day to  
that remaining on the ground from  
the nine inch fall of Tuesday night  
and Wednesday morning. More  
snow or rain is predicted for to-night  
and Saturday in the forecast issued to-  
day. A minimum temperature to-  
night of about freezing is expected."

Negotiations looking to China's en-  
trance into the war against the central  
powers now are in progress at Peking  
and in all the Entente capitals, and  
their success depends only upon the  
harmonizing of the reward to be giv-  
en China with the amount of co-oper-  
ation demanded of her. It is regard-  
ed as practically certain that China  
will sever relations with Germany and  
a declaration of war probably will fol-  
low if the Entente will guarantee sat-  
isfactory relaxation of the restrictions  
imposed upon the eastern empire by  
the world powers after the Boxer  
troubles.

## GATHERING DATA.

Preliminary Figures of 1916  
Wood Pulp Production.

Washington, March, 2.—Returns  
from 160 woodpulp mills throughout  
the country, received in connection  
with the census of pulp-wood con-  
sumption and wood-pulp production  
being made by the Forest Service in  
co-operation with Newsprint Manu-  
facturers' Association, show that the  
reporting mills used in 1916 3,419,000  
cords of wood and had an output of  
approximately 2,229,000 tons of pulp.  
It is expected by the middle of March  
reports from practically all of the  
mills in the country operating in 1916  
will have been received. Complete  
figures are to be made public as soon  
as the remaining mills have been  
heard from.

Of the total production of wood  
pulp thus far reported 875,329 tons  
was made by the mechanical process,  
892,110 tons by the sulphite process,  
314,085 by the soda process, and 49-  
063 by the sulphate process.

No figures on pulp-wood and wood-  
pulp consumption have been compiled  
by the Forest Service since 1911, and  
it is expected that the present census  
will reveal a number of changes both  
as to amounts and kinds of wood  
used. It is stated that the higher  
stumpage values and the decreasing  
supplies of spruce and hemlock, as  
well as improved methods of manu-  
facture, have caused pulp makers to  
use increasing quantities of other  
woods.

The final report of the census by the  
Forest Service will show by States  
the number of cords of each kind of  
wood going into each of the four pro-  
cesses of pulp-making, as well as the  
average cost of the wood in the rough,  
peeled or dressed stage. Figures  
showing the production of each kind  
of wood-pulp and the average value  
per ton at the mill will also be given.

## You Need A Spring Laxative

Dr. King's New Life Pills will re-  
move the accumulated waste of  
winter from your intestines, the bur-  
den of the blood. Get that sluggish  
spring fever feeling out of your sys-  
tem, brighten your eye, clear your  
complexion. Get that vim and snap  
of good purified healthy blood. Dr.  
King's New Life Pills are a non grip-  
ping laxative that aids nature's pro-  
cesses, try them tonight. At all  
Druggists, 25c.—Advertisement.

## Something Nice for Supper.

Here is a nice supper dish I made  
from the remnants of a roast of beef:  
Chop or cut fine all the lean beef and  
mince an onion fine. Put into a bak-  
ing dish and cover with the leftover  
gravy. Cook in hot oven about three-  
quarters of an hour. Have hot mashed  
potatoes ready, remove dish from oven  
and spread mashed potatoes over top.  
Well season and return to oven to  
brown. I served this dish one night  
last week with hot biscuits, apple  
sauce, doughnuts, pickles and tea and  
I must say they did full justice to it.  
Try it some day.—Exchange.

## Turkish Dish.

Stew one cupful of cold lamb with  
one teaspoonful of minced onion in  
one cupful of water until very tender.  
Skim out the meat and add to the  
water enough strained tomato to make  
one pint, or use more water if you  
have not enough of the tomato. Season  
highly with salt and pepper and  
a little curry or chutney sauce.

## Cafe Mousse.

Whip one pint of heavy cream and  
add one-half cupful of powdered  
sugar. Next add one cupful of black  
coffee infusion and one-fourth tea-  
spoonful of salt. Turn the mixture  
into a mold, pack in ice and let stand  
for five hours.

## Baptist Dip.

Roll light dough very thin; cut with  
small biscuit cutter, or in squares  
with a knife. Fry in hot lard until  
light brown. Place in colander to re-  
move fat. Prepare milk or cream  
gravy, as for common toast.

## Handy Sewing Basket.

To make a handy sewing basket  
cover a square or an oblong peach  
basket or any cardboard box with  
cretonne and line with contrasting lin-  
ing cotton; sew in pockets for neces-  
sary articles needed for sewing.

## Ada's Hoptoads.

Very nice for breakfast with coffee.  
One cupful sour milk, one egg, one-  
half teaspoonful salt, one of soda and  
flour enough to make a stiff batter;  
drop from spoon into hot lard and fry.

## Restoring Color.

When the color has been taken out  
of black goods it may be restored by  
the application of liquid ammonia.

FOR FLETCHER'S  
CASTORIA

## Dread Of An Operation.

N. Manchegor, Ind.—Mrs. Eva  
Bashore, of this place, says: "I suf-  
fered female misery of every de-  
scription. Two doctors attended  
me, and advised an operation. I  
lost weight until I weighed only  
ninety pounds. I dreaded an op-  
eration, and, instead, began to take  
Cardui. In a short time, I gained  
25 pounds, and feel as well as I ever  
did. Cardui is today used in thou-  
sands of homes, where it relieves  
pain and brings back strength and  
ambition. It is a woman's medicine,  
for women's ailments, and you are  
urged to try it for your troubles.  
Ask your druggist. He will tell you  
about Cardui.—Advertisement.

## Cheap Rice Pudding.

Put three tablespoonfuls of rice  
into a double boiler with one cupful  
of cold water. Boil one-half hour, then  
put in three cupfuls of milk and boil  
until soft. Stir with a silver fork so  
as not to break the rice. When done  
take off, beat the yolk of one egg and  
stir into the rice. The heat of the  
rice will cook the egg enough. Then  
turn into the dish you are going to  
serve it in and take two tablespoonfuls  
of sugar, one-half teaspoonful of nut-  
meg or cassia and mix together.  
Sprinkle over the top of the pudding,  
then put a small piece of butter on  
here and there. The hot pudding will  
melt the butter, forming a brown  
frosting over the top.

## Dutch Peach Pie.

Drain liquor from a can of peaches.  
Cut them into eighths and set to drain  
while making crust.  
One pint of flour, one-half teaspoon-  
ful of salt, two and one-half teaspoon-  
fuls of baking powder, one beaten egg  
one cupful of milk.  
Put dough in pan and press peaches  
in top of layer. Sprinkle with sugar  
and add a little butter. Serve with  
peach juice or whipped cream.

## To Prevent Fading.

When washing colored gingham,  
muslins, etc., soak in cold salt water,  
then wash in strong suds made by  
dissolving white soap in warm water.  
Wash quickly, rinse in cold water and  
dry in the shade. In this way the  
color will not fade.

## Best Way to Wash Lace.

Squeeze the lace first in hot water,  
then in cold. To stiffen dip it in milk.  
It should be pressed on a well-padded  
board, on the wrong side, with a fairly  
hot iron.

Bad Colds From Sudden  
Changes

Spring brings all kinds of weather  
and with it come colds and the re-  
vival of winter coughs and hoars-  
ness. Dr. Bell's Pine-Tar Honey  
will head off a new cold or stop the  
old one; the soothing balsams relieve  
the sore throat and heal the irritated  
tissue. Get a bottle today and start  
treatment at once. At your Drug-  
gist's 25c. Formula on the bottle.—  
Advertisement.

## Ingenious Lucinda.

"Lucinda tells me," says brother  
Claude, "that when a girl has washed  
her hair there are various ways in  
which she may dry same. She may  
sit with her back at a window through  
which the sun is shining; if the  
weather is balmy she may go up on  
the roof and sit in the sun there; if  
she has an electric blower designed  
for such purposes she may use that.  
Finally, this being, I imagine, a com-  
paratively recent discovery, if the  
house or apartment is provided with  
a modern gas range having an ele-  
vated oven she can light the gas in  
said oven open its door and stand in  
front of that."

CLARK SECOND  
IN RICHESCopper King Believed To  
Be Overhauling  
Rockefeller.

Butte, Mont.—Is W. A. Clark, mine  
king and former Senator from Mon-  
tana, overhauling John D. as the rich-  
est man in America?

That's the word out here.

War prices on metals have enor-  
mously increased Clark's already fabu-  
lous income.

And the difference between Clark  
and Rockefeller and other American  
money monarchs is that Clark's vast  
holdings are practically in his own  
name and that of his family.

His intimates here say he could  
raise \$100,000,000 in cash in 24 hours  
out of his own storehouse of wealth,  
and that he is probably the only man  
in the United States who can.

## HIS RICH ARIZONA MINE.

United Verde, the Arizona copper  
mine, for which Clark recently refus-  
ed \$75,000,000, is alone paying him a  
monthly dividend of \$2,000,000.

His Butte properties, though com-  
paratively small, also yield him enor-  
mous sums.

Aside from the \$50,000,000 loan he  
made France, the adopted land of his  
children, Clark has \$20,000,000 loose  
change he doesn't know what to do  
with.

A French syndicate wanted to pur-  
chase United Verde, "The Old Man,"  
as they call him here, said:

"Well, I don't want to sell Verde,  
but I suppose everything has its price.  
Tell you what I'll do. You survey the  
property and pay me 10 cents a pound  
for all the ore actually in sight."

## WORTH A STAGGERING SUM.

When, at 10 cents per pound, the  
actual ore bulked to the staggering  
figure of \$60,000,000, the syndicate  
engineers threw up their hands. And  
copper is today selling around 35  
cents per pound.

Clark has a \$15,000,000 home on  
Fifth avenue, a \$10,000,000 chateau in  
Paris, where his children live, another  
palace in Los Angeles and the old  
home here in Butte.

In New York the brass trust want-  
ed to hold him up on \$1,000,000 fix-  
tures for his Fifth avenue home, so  
Clark started a foundry of his own  
just for that purpose.

Starting as a bull-team driver, a  
vendor of spices and baking powders  
here in the early days, he got in on  
the first whack at the "billion-dollar  
hill" at Butte.

To-day, at 76, he has mines in Mon-  
tana, Arizona, California, Michigan,  
owns the Salt Lake line from Butte to  
Los Angeles, has oil properties in  
Wyoming—in fact, owns tremendous  
properties in nearly every State.

Every night he knows just what has  
happened during the day on all his  
holdings. He gets reports from them  
all—a bushel basket of telegrams ev-  
ery night at the New York offices.

## POLITICS COST HIM MILLIONS.

His political fights in Montana—and  
they have been on the theory that  
might makes right—has cost this su-  
per-rich man millions.

It is from these political battles that  
Clark says he has learned the philoso-  
phy in which he today ascribes his  
remarkable energy and unfailing busi-  
ness acumen. "I have learned to nev-  
er worry," he asserts, "to conserve  
my energies. The result is that I sleep  
like a child."

## Children Cry for Fletcher's

CASTORIA

The Kind You Have Always Bought, and which has been  
in use for over 30 years, has borne the signature of  
and has been made under his per-  
sonal supervision since its infancy.  
Allow no one to deceive you in this.  
All Counterfeits, Imitations and "Just-as-good" are but  
Experiments that trifle with and endanger the health of  
Infants and Children—Experience against Experiment.

## What is CASTORIA

Castoria is a harmless substitute for Castor Oil, Paregoric,  
Drops and Soothing Syrup. It is pleasant. It contains  
neither Opium, Morphine nor other narcotic substance. Its  
age is its guarantee. For more than thirty years it has  
been in constant use for the relief of Constipation, Flatulency,  
Wind Colic and Diarrhoea; allaying Feverishness arising  
therefrom, and by regulating the Stomach and Bowels, aids  
the assimilation of Food; giving healthy and natural sleep.  
The Children's Panacea—The Mother's Friend.

## GENUINE CASTORIA ALWAYS

Bears the Signature of

In Use For Over 30 Years

The Kind You Have Always Bought

THE CENTAUR COMPANY, NEW YORK CITY.

If You Want The best Separator  
that is built, buy a Dairymaid.THERE IS MORE PROFIT  
IN YOUR DAIRY

than you ever realized unless you are  
using a Dairymaid cream separator.  
The Dairymaid is the only successful  
chain drive machine on the  
American market today. The  
chain drive causes that  
smooth, vibrationless  
movement of the bowl  
which helps give the Dairy-  
maid its close skimming  
qualities.

The oiling facilities of the  
machine are excellent. Every  
part of the mechanism, except  
the bowl spindle neck bearing,  
is oiled from an oil bath in  
which the gears revolve. The  
neck bearing is self-aligning,  
non-adjustable, and trouble proof.

If you have been skimming by the old gravity method,  
or selling your milk, it is time to look for a bigger profit  
in your dairy.

When examining the Dairymaid separator notice these  
features:

Chain drive, eliminating vibration.  
Power driven at the base.  
Six-piece frame.  
Efficient disk skimming device.  
Phosphor bronze bearings at all wearing points.  
Splash lubrication from oil bath.  
Trouble-proof bowl spindle neck bearings.
